SUBJECT INDEX*

ABORTION, MISSED
Monitoring of leukocyte alkaline phosphatase activity in pregnancy, 1159
ABSTRACTS
Annual Meeting of the Israel Immunological Society, 1st, Proceedings, 30 April and 1 May 1969, 436
National Congress of the Israel Society of Hematology and Blood Transfusion, 1st, Proceedings, 8 to 10 May 1969, 1087
ADRENAL GLANDS
Relation of kidneys and adrenal glands to hypovolemic thirst (PSC), 411
AGING
Glycogen changes with age in oral epithelia of the rat, 360
Neuroaxonal dystrophy: Its relation to age and central nervous system lesions, 373
ALCOHOL, ETHYL
Effect of ethanol on postexercise lactacidemia, 959
ALKALINE PHOSPHATASE
Monitoring of leukocyte alkaline phosphatase activity in pregnancy, 1159
AMMONIA
Significance of myocardial ammonia metabolism in the failing heart, 496
ANAPHYLAXIS
Synthesis of stearo-aminoethyl-polyvinylalcohol and its use for preparation of agents for specific adsorptive sensitization of erythrocytes, 253
ANEMIA
Congenital inclusion body hemolytic anemia. Study of a family, 383
Hereditary hemolytic anemia associated with glucose-6-phosphate dehydrogenase deficiency (Mediterranean type), 1053
Pancytopenia with hypercellular hemopoietic tissue, 69
Toxic effects of chloramphenicol. A survey of children treated in general practice, 1184
ANEURYSM
Surgery for Marfan's syndrome, 871
ANGINA PECTORIS
Clinical observation of anginal attacks, 718
Correlations of coronary angiography with metabolic and electrocardiographic studies, 710
Effects of nitroglycerin and propranolol on angina pectoris induced by intravenous infusion of isoproterenol, 736
Emotional correlates of angina pectoris, 723
Physical activity at work, lipoproteins and the incidence of angina pectoris, myocardial infarction and death due to ischemic heart disease, 786
A single blind trial of Trasicor (Ciba 39,089/Ba) in angina pectoris, 738
ANIMALS, LABORATORY
Use of the unanesthetized monkey in cardiovascular research, 530
ANTIBODIES
Anti-Tj^a, a rare human isoantibody. First finding in Israel, 114
Characteristics of antibody to a limited antigenic stimulus, 332
Characterization of cytotoxic isoantisera produced in RIII mice. II. Serological properties of antiserum fractions, 235
Degeneracy in the secondary immune response; stimulation of antibody formation by cross-reacting antigens, 338
Endotoxin antibodies in patients on maintenance hemodialysis, 1032
Experimental concurrence of pemphigus-like autoantibodies and bullous-like lesions, 1154
The fate of D-amino acid polypeptide [p(D-Tyr,D-Glu,D-Ala), 247] in newborn and adult mice. Relationship to the induction of tolerance, 185
Homocytotropic antibodies in the primary and secondary immune response, 245
Identification of type specific streptococcal antibodies by *in vitro* phagocytosis, 285
IgA abnormalities in abdominal lymphoma (α-chain disease), 151
Immunochemical studies on the poly-γ-D-glutamyl capsule of *Bacillus anthracis*. V. The *in vivo* fate and distribution in rabbits of the polypeptide in immunogenic and nonimmunogenic forms, 196

* CPC = Clinico-pathological Conference
PSC = Preliminary or Short Communication.

Modulation of immunological responsiveness by pretreatment with a methanol-insoluble fraction of killed tubercle bacilli, 259
Opsonic capacity of type specific streptococcal antibodies, 293
Resolution of mouse and human immunoglobulin G into two fractions by chromatography on diethylaminoethyl-Sephadex. Relation of mouse antibody type to the antigen charge (PSC), 267
Sensitivity of radioisotope techniques for the assay of bovine serum albumin and of anti-bovine serum albumin antibodies (PSC), 274
Specificity of immunological tolerance to synthetic polypeptides, 177
Studies on antigenic competition. The effect of immunogenic and nonimmunogenic products in guinea pigs, 209
Synthesis of stearo-aminoethyl-polyvinylalcohol and its use for preparation of agents for specific adsorptive sensitization of erythrocytes, 253
Unmasking of cell-associated foreign antigens during incubation of lymphoid cells, 230

ANTIGEN-ANTIBODY REACTION
The interaction of hapten-coupled bacteriophage ΦX174 with antihapten antibody, 163
Relationship between the net electrical charge of antigens and specific antibodies. An example of the selection by antigen of cells producing highest affinity antibody, 171
Substrate effect on enzyme-antienzyme reaction (PSC), 270

ANTIGENS
Characterization of cytotoxic isoantisera produced in RIII mice. II. Serological properties of antiserum fractions, 235
Degeneracy in the secondary immune response; stimulation of antibody formation by cross-reacting antigens, 338
The fate of D-amino acid polypeptide [p(D-Tyr, D-Glu,D-Ala), 247] in newborn and adult mice. Relationship to the induction of tolerance, 185
Unmasking of cell-associated foreign antigens during incubation of lymphoid cells, 230

ANURIA
Acute oliguric intrinsic renal failure. Diagnostic criteria and clinical features in 61 patients, 1024

AORTA
Low-density lipoprotein accumulation in aortic and coronary artery walls, 631

AORTIC ANEURYSM
Abdominal aortic dissection presenting as femoral artery occlusion, 407
Statistical and clinicopathological studies of dissecting aortic aneurysm among Japanese, 616

AORTIC VALVE
Aortic valve replacement, 869
Aortic valve replacement with homograft, 867
The functional and surgical anatomy of the aortic valve, 862
Long-term (1 to 4 years) results with heart valve prostheses (102 consecutive cases), 896
Multiple valve replacement, 893

AORTIC VALVE INSUFFICIENCY
Clinical experience with a new type of valve replacement: a cageless discoid type of prosthesis named SAM valve, 889
Radiologic and angiocardiographic aspects of ventricular septal defect associated with aortic insufficiency, 580
Surgery for Marfan's syndrome, 871

AORTOGRAPHY
Complications in brachial countercurrent arteriography and in retrograde femoral arteriography, 1192

APHORISMS AND PROVERBS
Hebrew medicine, 22, 55, 80, 170, 229, 252, 337, 372, 406, 970, 997, 1047, 1158, 1197, 1248

ARRHYTHMIA
Atrioventricular conduction in atrial fibrillation, 478
Autoregulation of cardiac contraction in atrial fibrillation, 475
Experimental studies on aconitine-induced atrial fibrillation with microelectrodes, 470
The genesis of cardiac fibrillation as an abnormal electrical phenomenon of the cell, 466
Hemodynamic effects of lidocaine, 750
Intra-atrial tele-electrocardiography, 554
A myocardial syndrome associated with ventricular arrhythmias, 806
Neuroleptanalgesia in the treatment of acute myocardial infraction, 747

ARTERIAL INSUFFICIENCY
Syndromes of extracranial great arterial insufficiencies presented with various clinical signs and symptoms, 622

ARTERIES
Coronary arteries in young monkeys, 639

ARTERIOSCLEROSIS
Effect of environmental changes on the development of hypercholesterolemia and atherosclerosis in cholesterol oil fed cockerels, 635
Five years experience with the use of partial ileal bypass in the treatment of hypercholesterolemia and atherosclerosis, 760
Relations between circulating blood and pathogenesis of atherosclerosis, 648

ATRIAL FIBRILLATION
Atrioventricular conduction in atrial fibrillation, 478
Autoregulation of cardiac contraction in atrial fibrillation, 475
Early conversion of atrial fibrillation after open-heart surgery by combined propranolol and quinidine treatment, 102
Experimental studies on aconitine-induced atrial fibrillation with microelectrodes, 470
The genesis of cardiac fibrillation as an abnormal electrical phenomenon of the cell, 466
AUTOANTIBODIES
Experimental concurrence of pemphigus-like autoantibodies and bullous-like lesions, 1154

BACILLUS ANTHRACIS
Immunochemical studies on the poly-γ-D-glutamyl capsule of *Bacillus anthracis*. V. The *in vivo* fate and distribution in rabbits of the polypeptide in immunogenic and nonimmunogenic forms, 196
BACTERIAL PROTEINS
Opsonic capacity of type specific streptococcal antibodies, 293
Polyacrylamide-gel electrophoresis of cell proteins of Enterobacteriaceae. A possible taxonomic aid, 49
BACTERIOPHAGES
The interaction of hapten-coupled bacteriophage ΦX174 with antihapten antibody, 163
BCG VACCINATION
Tuberculoid granulomata in the liver after BCG vaccination, 108
BIOLOGICAL TRANSPORT
Regulatory mechanism of the oxygen transport system, 923
BITES AND STINGS
Catecholamine excretion in scorpion sting, 855
Sympathomimetic effects of scorpion venom on the cardiovascular system, 853
BLADDER
The effect of Paragone on the human bladder, 1037
BLOOD GROUPS
Anti-Tj^a, a rare human isoantibody. First finding in Israel, 114
Frequency and distribution of ABO and Rho(D) blood groups in Shiraz (PSC), 1081
BLOOD PLATELET DISORDERS
Platelet factor 3 availability in Glanzmann's disease (PSC), 1259
BLOOD PRESSURE
Assisted circulation by external pressure variation, 506
Cerebrovascular accidents and their prevention in hypertensive patients 619
Clinical estimation of myocardial force development by timing the arterial sounds, 537
Clinical observation of anginal attacks, 718
The epidemiology of urinary infections in Hiroshima, Japan and their relation to blood pressure levels and chronic pyelonephritis, 612
Follow-up study of myocardial infarction: its hemodynamics and myocardial gas metabolism, 766
Hemodynamic effects of lidocaine, 750
Renin content of kidneys in various types of experimental hypertension in rats, 594
Sodium intake and blood pressure in Pacific populations, 608
Statistical and clinicopathological studies of dissecting aortic aneurysm among Japanese, 616
Studies of plasma renin activity in patients with hypertension, 598
Sympathomimetic effects of scorpion venom on the cardiovascular system, 853
Syndromes of extracranial great arterial insufficiencies presented with various clinical signs and symptoms, 622
BLOOD VISCOSITY
Blood rheology as a factor in the pathogenesis of coronary heart diseases, 652
BONE CONDUCTION
Propagation of cardiac murmurs along bones, 572
BONE DISEASES
Chondroitin sulphate in treatment of experimental bone defects (PSC), 425
Fate of osteogenic tissue transferred to the subcutaneous area by means of polyvinylformal sponge, 365
BONE MARROW CELLS
Pancytopenia with hypercellular hemopoietic tissue, 69
BUNDLE BRANCH BLOCK
Clinical and pathological studies on incomplete left bundle branch block in the aged, 732

CALCINOSIS
Two cases of renal disease with unusual disturbances in calcium metabolism, 91
CALCIUM HYDROXIDE
Dental pulp pH under silicate cement and calcium hydroxide dressings, 352
CARCINOGENS
International Symposium on the Physicochemical Mechanisms of Carcinogenesis. Concluding remarks, 278
CARCINOMA, EHRLICH TUMOR
Studies on the behavior of skin autografts following their *in vitro* treatment with cancer cells (PSC), 1077

CARDIAC OUTPUT
Hemodynamic studies in primary myocardial disease, 794
Myocardial function during β-adrenergic blockade, 741
A single blind trial of Trasicor (Ciba 39,089/Ba) in angina pectoris, 738
CARTILAGE
Chondroitin sulphate in treatment of experimental bone defects (PSC), 425
CATECHOLAMINES
Catecholamine excretion in scorpion sting, 855
Experimental studies on the effects of propranolol and phenoxybenzamine on the electrocardiogram and coronary blood flow, 515
The hemodynamic response to isoproterenol in massive acute pulmonary embolism, 839
CELL DIFFERENTIATION
Graft reaction in cell culture, 135
CEREBROVASCULAR DISORDERS
Cerebrovascular accidents and their prevention in hypertensive patients, 619
The etiological role of diabetes mellitus in cardiovascular disease, 675
CHLORAMPHENICOL
Toxic effects of chloramphenicol. A survey of children treated in general practice, 1184
CHLORPROMAZINE
Priapism and Largactil medication (PSC), 1254
CHOLESTEROL
Blood lipids and lipoproteins, glucose tolerance and plasma insulin response in Chinese men with and without coronary heart disease in Hawaii, 666
Cholesterol distribution and turnover in obesity in man, 644
Coronary arteries in young monkeys, 639
Effect of environmental changes on the development of hypercholesterolemia and atherosclerosis in cholesterol oil fed cockerels, 635
Low-density lipoprotein accumulation in aortic and coronary artery wall, 631
Serum cholesterol: its distribution and association with dietary and other variables in a survey of 10,000 men, 1117
Serum lipids in hard and soft water communities, 657
Studies on hyperlipidemia among Japanese, 661
CHONDROITIN
Chondroitin sulphate in treatment of experimental bone defects (PSC), 425
CHROMOSOMES
Mapping of the aspartase gene in *Eschericia coli* K-12 (PSC), 413
Mucocutaneous pigmentation and intestinal polyposis (Peutz-Jeghers syndrome) in a family of Iraqi Jews with polycystic kidney disease. With a chromosome study, 81
COMPUTERS
Computer analysis of electrocardiograms during monitoring, 908
Computer diagnosis of electrocardiograms by means of joint probability, 913
Electrocardiographic diagnosis of left ventricular hypertrophy with the aid of an elecrtonic computer, 917
Human versus computer evaluation of electrocardiographic data in epidemiological studies, 920
CONGRESSES
Annual Meeting of the Israel Immunological Society, 1st, Proceedings, Jerusalem and Rehovot, 1969, 436
Asian-Pacific Congress of Cardiology, 4th, Proceedings, Jerusalem and Tel Aviv, 453
Combined Annual Meeting of the European Society for Paediatric Endocrinology and the European Club for Paediatric Research, Vienna, 1968, 131
International Congress of Cybernetic Medicine, 5th, Naples, 1968, 450
International Congress of Genetics, 12th, Tokyo, 1968, 130
National Congress of the Israel Society of Hematology and Blood Transfusion, 1st, Proceedings, Zichron Yaacov, 1969, 1087
CORONARY CARE UNITS
Acute coronary care in a small hospital, 780
Coronary care unit in Japan, 777
Coronary care unit versus hospital mortality in acute myocardial infarction, 772
CORONARY DISEASE
Blood lipids and lipoproteins, glucose tolerance and plasma insulin response in Chinese men with and without coronary heart disease in Hawaii, 666
Blood rheology as a factor in the pathogenesis of coronary heart diseases, 652
Clinical and electrocardiographic responses to exercise in patients with coronary artery disease, 696
Coronary care unit versus hospital mortality in acute myocardial infarction, 772
Correlations of coronary angiography with metabolic and electrocardiographic studies, 710
The etiological role of diabetes mellitus in cardiovascular disease, 675
Evaluation of risk factors in coronary heart disease in Ceylon, 671
Hemodynamic-angiocardiographic correlations in ischemic heart disease, 715
Identifying coronary prone families by screengin of school populations, 683

Observations on physical characteristics in coronary heart disease. An analysis of 75 cases, 680
Physical activity at work, lipoproteins and the incidence of angina pectoris, myocardial infarction and death due to ischemic heart disease, 786
Prevention of recurrent myocardial infarction by hysical exercise, 783
phabilitation of men with ischemic heart disease, Re791
Strict modified fat diet in coronary heart disease. The problem of non-responders, 754
CORONARY VESSELS
Coronary arteries in young monkeys, 639
Low-density lipoprotein accumulation in aortic and coronary artery walls, 631
COXSACKIE VIRUS INFECTIONS
Transplacental infection of the mouse fetus by Coxsackie viruses (PSC), 125
CRYPTOCOCCOSIS
Granuloma formation in cryptococcosis, 1164
CYTOPLASMIC GRANULES
Congenital inclusion body hemolytic anemia. Study of a family, 383

DEAFNESS
A genetic study of familial deafness, 1219
DEMENTIA, PRESENILE
Brain atrophy, hydrocephalus and dementia in adults, 1213
DENTAL PULP
Dental pulp pH under silicate cement and calcium hydroxide dressings, 352
DIABETES MELLITUS
Blood lipids and lipoproteins, glucose tolerance and plasma insulin response in Chinese men with and without coronary heart disease in Hawaii, 666
The etiological role of diabetes mellitus in cardiovascular disease, 675
DIAPHRAGMATIC HERNIA
The formative stage of infantile hiatal hernia, 1206
DIETARY PROTEINS
Effect of raw soybean flour on vitamin B_{12} requirement of rats (PSC), 415
DIETHYLCARBAMAZINE
Diethylcarbamazine and uveitis (PSC), 1263
DIPHTHERIA
The electrocardiogram in diphtheritic myocarditis, 938
DISEASE
New International Classification of Diseases, 128
DIURESIS
Intravascular interstitial and intracellular phase changes during acute furosemide or ethacrynic acid diuresis, 942
DNA
Protein and nucleic acids of rabbit heart muscle in experimentally produced cardiac hypertrophy and failure, 501
DRUG RESISTANCE, MICROBIAL
Penicillin β-lactamase and penicillin acylase formation by gram-negative bacteria, 297
Tween-splitting activity of *Staphylococcus aureus* strains isolated from clinical material, 56

ELECTROCARDIOGRAPHY
Atrial pathology and the esophageal electrocardiogram, 542
Computer analysis of electrocardiograms during monitoring, 908
Computer diagnosis of electrocardiograms by means of joint probability, 913
Continuous telemetered electrocardiograms during syncope, 548
The electrocardioanalyzer, 687
Electrocardiographic diagnosis of left ventricular hypertrophy with the aid of an electronic computer, 917
Focal cardiography. An experimental study in dogs, 13
Human versus computer evaluation of electrocardiographic data in epidemiological studies, 920
Intra-atrial tele-electrocardiography, 554
The post-extrasystolic T wave change: a correlate of the inotropic state, 491
ELECTRODES
The controlled preparation of metal microelectrodes (PSC), 1256
ENDOCARDIAL FIBROELASTOSIS
A case of primary endocardial fibroelastosis with complete heart block treated with artificial pacing, 1249
ENDOCARDITIS, BACTERIAL
A survey of bacterial endocarditis during a 12-year period, 313
ENDOTOXINS
Endotoxin antibodies in patients on maintenance hemodialysis, 1032
ENTEROBACTERIACEAE
Penicillin β-lactamase and penicillin acylase formation by gram-negative bacteria, 297
Polyacrylamide-gel electrophoresis of cell proteins of Enterobacteriaceae. A possible taxonomic aid, 49
ENZYMES
Penicillin β-lactamase and penicillin acylase formation by gram-negative bacteria, 297
Substrate effect on enzyme-antienzyme reaction (PSC), 270

EOSINOPHILIA
Recurrent hydronephrosis, retroperitoneal fibrosis and eosinophilia in a patient with previous evidence of Loeffler's infiltrate in the lungs, 1071
ERYTHROCYTES
Congenital inclusion body hemolytic anemia. Study of a family, 383
Studies on red cell nucleoside triphosphate pyrophosphohydrolases, 991
Synthesis of stearo-aminoethyl-polyvinylalcohol and its use for preparation of agents for specific adsorptive sensitization of erythrocytes, 253
EXERCISE THERAPY
Clinical and electrocardiographic responses to exercise in patients with coronary artery disease, 696
Effect of physical training on neurocirculatory asthenia, 947
Physical activity at work, lipoproteins and the incidence of angina pectoris, myocardial infarction and death due to ischemic heart disease, 786
Prevention of recurrent myocardial infarction by physical exercise, 783
Rehabilitation of men with ischemic heart disease, 791
Significance of maximal exercise ST responses in middle-aged Chinese men, 691
EXERTION
Comparison of the maximal endurance of cardiac pre- and postoperative patients and normals, 589
Effect of ethanol on postexercise lactacidemia, 959
EXOPHTHALMOS
Electromyography of the extraocular muscles in exophthalmos. A contribution to the problem of differential diagnosis, 378

FATTY ACIDS, NONESTERIFIED
Changes in blood free fatty acid concentration following oral lactose and glucose tolerance tests in infants, 1128
Inhibition of fat mobilization by propranolol during fasting, 1002
FEMORAL ARTERY
Abdominal aortic dissection presenting as femoral artery occlusion, 407
FEMUR
Internal fixation with spring-loaded compression for the intertrochanteric displacement osteotomy of the femur, 1227

GAMMA GLOBULIN
Modulation of immunological responsiveness by pretreatment with a methanol-insoluble fraction of killed tubercle bacilli, 259
GENETICS, POPULATION
Frequency and distribution of ABO and Rho(D) blood groups in Shiraz (PSC), 1081
GLUCONEOGENESIS
Enzymes of gluconeogenesis in tumor-bearing rats, 998
GLUCOSE
Changes in blood free fatty acid concentration following oral lactose and glucose tolerance tests in infants, 1128
GLUTEN
Fecal fat excretion and intestinal histology in rats receiving neomycin and gluten, 23
GLYCERYL TRINITRATE
Clinical observation of anginal attacks, 718
Effects of nitroglycerin and propranolol on angina pectoris induced by intravenous infusion of isoproterenol, 736
GLYCOGEN
Glycogen changes with age in oral epithelia of the rat, 360
G6PD DEFICIENCY
Hereditary hemolytic anemia associated with glucose-6-phosphate dehydrogenase deficiency (Mediterranean type), 1053
GRANULOMA
Granuloma formation in cryptococcosis, 1164

HAPTENS
The interaction of hapten-coupled bacteriophage ΦX174 with antihapten antibody, 163
Unmasking of cell-associated foreign antigens during incubation of lymphoid cells, 230
HAPTOGLOBINS
Significance of serum haptoglobin in rheumatic fever, 1133
HEART
Acute myocardial injury produced by sympathomimetic amines, 519
Cardiac changes in progressive muscular dystrophy. A hemodynamic study, 797
Clinical estimation of myocardial force development by timing the arterial sounds, 537
A hormonal influence of the heart on the kidney, 525
Myocardial pathology following scorpion venom injections, 849
The structural basis for excitation-contraction coupling in mammalian myocardial cells, 488
Transitory abnormal Q waves in patients with and without myocardial infarction, 701
HEART ARREST
Long-term prognosis in patients resuscitated from cardiac arrest, 769

HEART ATRIUM
Atrial pathology and the esophageal electrocardiogram, 542
Conduction pathways of excitation in the right atrium of the rabbit under hyperpotassemia. A study with multiple microsuction electrodes, 485
HEART BLOCK
A case of primary endocardial fibroelastosis with complete heart block treated with artificial pacing, 1249
Follow-up of patients with implanted pacemakers, 819
Long-term prognosis in patients resuscitated from cardiac arrest, 769
The mechanism of the Wenckebach phenomenon, 814
A study of the pathogenesis of local intraventricular block and monophasic wave, 810
Variables influencing the prognosis in atrioventricular block, 824
HEART CONDUCTION SYSTEM
Atrioventricular conduction in atrial fibrillation, 478
Conduction pathways of excitation in the right atrium of the rabbit under hyperpotassemia. A study with multiple microsuction electrodes, 485
HEART DEFECTS, CONGENITAL
Cardiovascular lesions in rubella embryopathy with special emphasis on pulmonary arterial disease, 568
The double-chambered right ventricle. A report of five cases, 574
Familial and nonfamilial congenital abnormalities of the heart and upper extremities; a model for genetic counseling, 564
HEART FAILURE, CONGESTIVE
Assisted circulation by external pressure variation, 506
Coronary care unit in Japan, 777
Protein and nucleic acids of rabbit heart muscle in experimentally produced cardiac hypertrophy and failure, 501
Significance of myocardial ammonia metabolism in the failing heart, 496
HEART SEPTAL DEFECTS
Analysis of the cardiac surgery case load in South Australia, 1949–1967, 858
The double-chambered right ventricle. A report of five cases, 574
Radiologic and angiocardiographic aspects of ventricular septal defect associated with aortic insufficiency, 580
HEART SURGERY
Analysis of the cardiac surgery case load in South Australia, 1949–1967, 858
Aortic valve replacement, 869
Aortic valve replacement with homograft, 867
Effect of exercise on hemodynamic parameters in mitral valvular disease. Evaluation and clinical significance, 876
Experience with a Kay-Shiley disk valve, 885
The functional and surgical anatomy of the aortic valve, 862
A long-term follow-up study after transventricular mitral valvotomy, 904
Long-term (1 to 4 years) results with heart valve prostheses (102 consecutive cases), 896
Results of reconstructive surgery for mitral incompetence, 882
Right ventricle and tricuspid valve in mitral valve disease, 879
Surgery for Marfan's syndrome, 871
HEART TRANSPLANTATION
Pathological and ultrastructural findings in a case of heart transplantation, 1235
Some electrocardiographic changes in human heart transplants, 931
HEMODIALYSIS
Endotoxin antibodies in patients on maintenance hemodialysis, 1032
HEMOGLOBIN
The increase of hemoglobin A_2 to its adult level (PSC), 427
Hemoglobin D_{Punjab} in a Bulgarian Jewish family, 1066
HERPES SIMPLEX
Effect of p-fluorophenylalanine on the replication of herpes simplex virus (PSC), 1083
HYDROCEPHALUS
Brain atrophy, hydrocephalus and dementia in adults, 1213
HYDRONEPHROSIS
Recurrent hydronephrosis, retroperitoneal fibrosis and eosinophilia in a patient with previous evidence of Loeffler's infiltrate in the lungs, 1071
HYPERALDOSTERONISM
Studies of plasma renin activity in patients with hypertension, 598
HYPERCALCEMIA
The effect of induced hypercalcemia on renal handling of divalent ions in patients with renal disease, 33
HYPERCHOLESTEREMIA
Effect of environmental changes on the development of hypercholesterolemia and atherosclerosis in cholesterol oil fed cockerels, 635
Five years experience with the use of partial ileal bypass in the treatment of hypercholesterolemia and atherosclerosis, 760
HYPERGLYCEMIA
Hyperglycemia and uric acid, 1048

HYPERLIPEMIA
Relations between circulating blood and pathogenesis of atherosclerosis, 648
Studies on hyperlipidemia among Japanese, 661
HYPERPARATHYROIDISM
The effect of induced hypercalcemia on renal handling of divalent ions in patients with renal disease, 33
HYPERTENSION
Cerebrovascular accidents and their prevention in hypertensive patients, 619
The etiological role of diabetes mellitus in cardiovascular disease, 675
The hemodynamic response to isoproterenol in massive acute pulmonary embolism, 839
Renin content of kidneys in various types of experimental hypertension in rats, 594
Reversal of excessive hypertension in patients with terminal renal failure by intermittent hemodialysis and bilateral nephrectomy, 400
Studies of lymph flow and changes in pulmonary structures as indexes of circulatory changes in experimental pulmonary edema, 826
Studies of plasma renin activity in patients with hypertension, 598
Testing in hypertension, 605
HYPERTHYROIDISM
Management of thyrotoxicosis in pregnancy. Value of serial protein-bound iodine and Hamolski tests, 43
HYPOPARATHYROIDISM
Diminished functional parathyroid reserve following I^{131} treatment for hyperthyroidism (PSC), 419
HYPOPROCONVERTINEMIA
Hereditary deficiency of blood clotting factor VII and Dubin-Johnson syndrome in an Israeli family, 1060

IMMUNE TOLERANCE
The fate of D-amino acid polypeptide [p(D-Tyr,D-Glu,D-Ala), 247] in newborn and adult mice. Relationship to the induction of tolerance, 185
INFANTS, NEWBORN
Changes in blood free fatty acid concentration following oral lactose and glucose tolerance tests in infants, 1128
Erythrocyte galactose-1-phosphate uridyl transferase activity in infants of low birth weight, 27
The formative stage of infantile hiatal hernia, 1206
The Jerusalem Perinatal Study. 1. Design and organization of a continuing, community-based, record-linked survey, 1095.
The Jerusalem Perinatal Study. 2. Infant deaths 1964–66: a cohort study of socioethnic factors in deaths from congenital malformations and from environmental and other causes, 1107
INFUSION, PARENTERAL
The immediate effect of rapid infusion of different fluids on static lung compliance and central venous pressure, 1149
INTESTINES
Fecal fat excretion and intestinal histology in rats receiving neomycin and gluten, 23
Primary gastrointestinal lymphoma, 1173
INTUBATION, INTRATRACHEAL
Visual endotracheal intubation without laryngoscope (PSC), 1266
IODINE ISOTOPES
Diminished functional parathyroid reserve following I^{131} treatment for hyperthyroidism (PSC), 419
ISOPROTERENOL
The hemodynamic response to isoproterenol in massive acute pulmonary embolism, 839

JAUNDICE, CHRONIC IDIOPATHIC
Hereditary deficiency of blood clotting factor VII and Dubin-Johnson syndrome in an Israeli family, 1060

KIDNEY
Distal tubular dysfunction after cadaver kidney homotransplantation (PSC), 117
Ectopic thoracic kidney, 98
A hormonal influence of the heart on the kidney, 525
Mucocutaneous pigmentation and intestinal polyposis (Peutz-Jehgers syndrome) in a family of Iraqi Jews with polycystic kidney disease. With a chromosome study, 81
Relation of kidneys and adrenal glands to hypovolemic thirst (PSC), 411
Renin content of kidneys in various types of experimental hypertension in rats, 594
KIDNEY FAILURE
Acute oliguric intrinsic renal failure. Diagnostic criteria and clinical features in 61 patients, 1024
Distal tubular dysfunction after cadaver kidney homotransplantation (PSC), 117
The effect of induced hypercalcemia on renal handling of divalent ions in patients with renal disease, 33
Renal handling of phosphate in patients with chronic renal failure. The role of variations in serum phosphorus and parathyroid activity, 1018
Two cases of renal disease with unusual disturbances in calcium metabolism, 91

LACTOSE
Changes in blood free fatty acid concentration fol-

lowing oral lactose and glucose tolerance tests in infants, 1128
LETTERS TO THE EDITOR
Harel, D., 435
Makonnen, H., 435
LEUKEMIA
The effect of a growth-enhancing substance, from leukemic cells and normal mouse embryo fibroblasts, on leukemic cells in tissue culture, 306
Preleukemic leukemia. A report of four cases, 1178
LIDOCAINE
Hemodynamic effects of lidocaine, 750
LIPIDS
Blood lipids and lipoproteins, glucose tolerance and plasma insulin response in Chinese men with and without coronary heart disease in Hawaii, 666
Cholesterol distribution and turnover in obesity in man, 644
Coronary arteries in young monkeys, 639
Effect of environmental changes on the development of hypercholesterolemia and atherosclerosis in cholesterol oil fed cockerels, 635
Evaluation of risk factors in coronary heart disease in Ceylon, 671
Lipid synthesis in phospholipase C treated microsomes, 971
Low-density lipoprotein accumulation in aortic and coronary artery walls, 631
Role of enhanced fat mobilization in liver triglyceride accumulation in carbon tetrachloride-induced liver injury, 975
Serum lipids in hard and soft water communities, 657
Strict modified fat diet in coronary heart disease. The problem of non-responders, 754
Studies on hyperlipidemia among Japanese, 661
LIPOPROTEINS
Blood lipids and lipoproteins, glucose tolerance and plasma insulin response in Chinese men with and without coronary heart disease in Hawaii, 666
Low-density lipoprotein accumulation in aortic and coronary artery walls, 631
LIVER
Effects of diet on preservation of certain TPN linked enzyme activities by liver explants in organ culture, 963
Effects of phenobarbital on rat liver acyl-phosphohydrolases, 985
Role of enhanced fat mobilization in liver triglyceride accumulation in carbon tetrachloride-induced liver injury, 975
LOEFFLER'S SYNDROME
Recurrent hydronephrosis, retroperitonial fibrosis and eosinophilia in a patient with previous evidence of Loeffler's infiltrate in the lungs, 1071
LUNG
The immediate effect of rapid infusion of different fluids on static lung compliance and central venous pressure, 1149
LYMPH
Studies of lymph flow and changes in pulmonary structures as indexes of circulatory changes in experimental pulmonary edema, 826
LYMPHOID TISSUE
Affinity of radioiodinated bovine serum albumin for lymphoid cells. Binding of I^{125}-BSA to lymphoid cells of immune mice, 217
LYMPHOMA
IgA abnormalities in abdominal lymphoma (α-chain disease), 151
Primary gastrointestinal lymphoma, 1173

MACROGLOBULINS
Spontaneous degradation of pathologic macroglobulins in urea. A kinetic study, 158
MALABSORPTION
Selective vitamin B_{12} malabsorption with proteinuria in Israel. Clinical and genetic aspects, 62
MALARIA
Vaccination against plasmodia, 429
MARFAN'S SYNDROME
Surgery for Marfan's syndrome, 871
MICROSOMES
Lipid synthesis in phospholipase C treated microsomes, 971
MITRAL VALVE
Clinical experience with a new type of valve replacement: a cageless discoid type of prosthesis named SAM valve, 889
Effect of exercise on hemodynamic parameters in mitral valvular disease. Evaluation and clinical significance, 876
Experience with a Kay-Shiley disk valve, 885
A long-term follow-up study after transventricular mitral valvotomy, 904
Long-term (1 to 4 years) results with heart valve prostheses (102 consecutive cases), 896
The mode of production of the left ventricular third heart sound, 539
Multiple valve replacement, 893
Prolapse of the posterior leaflet of the mitral valve, 727
Results of reconstructive surgery for mitral incompetence, 882
Right ventricle and tricuspid valve in mitral valve disease, 879
Surgery for Marfan's syndrome, 871

MONITORING SYSTEMS
Computer based monitoring of patients following cardiac surgery, 926
MONKEYS
Use of the unanesthetized monkey in cardiovascular research, 530
MOUTH MUCOSA
Glycogen changes with age in oral epithelia of the rat, 360
MUSCLE
Protein and nucleic acids of rabbit heart muscle in experimentally produced cardiac hypertrophy and failure, 501
The structural basis for excitation-contraction coupling in mammalian myocardial cells, 488
MUSCULAR DYSTROPHY
Cardiac changes in progressive muscular dystrophy. A hemodynamic study, 797
Radioisotope studies of thyroid function in progressive muscular dystrophy, 1188
MYOCARDIAL DISEASES, PRIMARY
The acute and chronic effects of pharmacological adrenergic blockade in obstructive cardiomyopathy, 803
A myocardial syndrome associated with ventricular arrhythmias, 806
MYOCARDIAL INFARCT
Acute coronary care in a small hospital, 780
Coronary care unit versus hospital mortality in acute myocardial infarction, 772
Follow-up study of myocardial infarction: its hemodynamics and myocardial gas metabolism, 766
Neuroleptanalgesia in the treatment of acute myocardial infarction, 747
Physical activity at work, lipoproteins and the incidence of angina pectoris, myocardial infarction and death due to ischemic heart disease, 786
Prevention of recurrent myocardial infarction by physical exercise, 783
Transitory abnormal Q waves in patients with and without myocardial infarction, 701
MYOCARDITIS
The electrocardiogram in diphtheritic myocarditis, 938
MYOCARDIUM
Clinical estimation of myocardial force development by timing the arterial sounds, 537
Hemodynamic studies in primary myocardial disease, 794
Pathological and ultrastructural findings in a case of heart transplantation, 1235
Protein and nucleic acids of rabbit heart muscle in experimentally produced cardiac hypertrophy and failure, 501
Significance of myocardial ammonia metabolism in the failing heart, 496
The structural basis for excitation-contraction coupling in mammalian myocardial cells, 488
Submicroscopical myocardial lesions produced by streptolysin O *in vivo*, 1138

NEOMYCIN
Fecal fat excretion and intestinal histology in rats receiving neomycin and gluten, 23
NEOPLASMS
Enzymes of gluconeogenesis in tumor-bearing rats, 998
IgA abnormalities in abdominal lymphoma (α-chain disease), 151
Inferior venocavography as an aid in the diagnosis of space-occupying lesions of the pancreas, 1198
Primary gastrointestinal lymphoma, 1173
Studies on the behavior of skin autografts following their *in vitro* treatment with cancer cells (PSC), 1077
NERVOUS SYSTEM
Neuroaxonal dystrophy: its relation to age and central nervous system lesions, 373

OBESITY
Cholesterol distribution and turnover in obesity in man, 644
OPSONINS
Opsonic capacity of type specific streptococcal antibodies, 293
OSTEOTOMY
Internal fixation with spring-loaded compression for the intertrochanteric displacement osteotomy of the femur, 1227
OXYGEN
Influence of ouabain and lack of potassium on Q_{O_2} of rat diaphragm in hypertonic sodium chloride solutions, 1044
Regulatory mechanism of the oxygen transport system, 923

PACEMAKER, ARTIFICAL
Demand coupled pacing, 422
Follow-up of patients with implanted pacemakers, 819
PANCREATIC DISEASES
Inferior venocavography as an aid in the diagnosis of space-occupying lesions of the pancreas, 1198
Recurrent pancreatitis and vasoactive phenomena in a 59-year-old man (CPC), 1268
PARAPROTEINEMIA
Pruritus as a possible early sign of paraproteinemia (PSC), 1079

PARASYMPATHOLYTICS
The effect of Paragone on the human bladder, 1037
PEMPHIGUS
Experimental concurrence of pemphigus-like autoantibodies and bullous-ike lesions, 1154
PENICILLINASE
Penicillin β-lactamase and penicilin acylase formation by gram-negative bacteria, 297
PEPTIDES
The fate of a D-amino acid polypeptide [p(D-Tyr, D-Glu,D-Ala), 247] in newborn and adult mice. Relationship to the induction of tolerance, 185
Immunochemical studies on the poly-γ-D-glutamyl capsule of *Bacillus anthracis*. V. The *in vivo* fate and distribution in rabbits of the polypeptide in immunogenic and nonimmunogenic forms, 196
Specificity of immunological tolerance to synthetic polypeptides, 177
PEUTZ-JEGHERS SYNDROME
Mucocutaneous pigmentation and intestinal polyposis (Peutz-Jeghers syndrome) in a family of Iraqi Jews with polycystic kidney disease. With a chromosome study, 81
PHAGOCYTOSIS
Identification of type specific streptococcal antibodies by *in vitro* phagocytosis, 285
Opsonic capacity of type specific streptococcal antibodies, 293
PHENOBARBITAL
Effect of phenobarbital on rat liver acyl-phosphohydrolases, 985
PHENOXYBENZAMINE
Experimental studies on the effects of propranolol and phenoxybenzamine on the electrocardiogram and coronary blood flow, 515
PHENTHALAMINE
Effect of a single dose of phentolamine and MJ 1999 on indomethacin-induced gastric ulcer in rats, (PSC), 417
PHENYLALANINE
Effect of p-fluorophenylalanine on the replication of herpes simplex virus (PSC), 1083
PHEOCHROMOCYTOMA
Recurrent pancreatitis and vasoactive phenomena in a 59-year-old man (CPC), 1268
PHONOCARDIOGRAPHY
Propagation of cardiac murmurs along bones, 572
PHOSPHOLIPASE
Lipid synthesis in phospholipase C treated microsomes, 971
PLASMODIUM
Vaccination against plasmodia, 429
PLETHYSMOGRAPHY
The application of photoplethysmography to the recording of Valsalva maneuver responses, 534
PORPHYRINS
Separation of uroporphyrin and coproporphyrin adsorbed on alumina by elution with saturated sodium acetate (PSC), 1264
POTASSIUM
Conduction pathways of excitation in the right atrium of the rabbit under hyperpotassemia. A study with multiple microsuction electrodes, 485
Influence of ouabain and lack of potassium on Q_{O_2} of rat diaphragm in hypertonic sodium chloride solutions, 1044
PREGNANCY
The Jerusalem Perinatal Study. 1. Design and organization of a continuing, community-based, record-linked survey, 1095
Management of thyrotoxicosis in pregnancy. Value of serial protein-bound iodine and Hamolski tests, 43
Monitoring of leukocyte alkaline phosphatase activity in pregnancy, 1159
PRIAPISM
Priapism and Largactil medication (PSC), 1254
PROPRANOLOL
The acute and chronic effects of phramacological adrenergic blockade in obstructive cardiomyopathy, 803
Acute myocardial injury produced by sympathomimetic amines, 519
Effects of nitroglycerin and propranolol on angina pectoris induced by intravenous infusion of isoproterenol, 736
Experimental studies on the effects of propranolol and phenoxybenzamine on the electrocardiogram and coronary blood flow, 515
Inhibition of fat mobilization by propranolol during fasting, 1002
PROTEINURIA
Selective vitamin B_{12} malabsorption with proteinuria in Israel. Clinical and genetic aspects, 62
PRURITIS
Pruritis as a possible early sign of paraproteinemia, (PSC), 1079
PSYCHOPHYSIOLOGIC DISORDERS
Emotional correlates of angina pectoris, 723
PULMONARY DISEASES
Cardiovascular lesions in rubella embryopathy with special emphasis on pulmonary arterial disease, 568
The electrocardiogram and vectorcardiogram associated with chronic pulmonary disease, 833
The hemodynamic response to isoproterenol in massive acute pulmonary embolism, 839

Splitting of the second heart sound in partial anomalous pulmonary venous connection with intact interatrial septum, 585
Streptokinase in acute major pulmonary embolism, 844
Studies of lymph flow and changes in pulmonary structures as indexes of circulatory changes in experimental pulmonary edema, 826

QUINIDINE
Early conversion of atrial fibrillation after open-heart surgery by combined propranolol and quinidine treatment, 102

RADIOIMMUNOASSAY
Sensitivity of radioisotope techniques for the assay of bovine serum albumin and of antibovine serum albumin antibodies (PSC), 274
RENIN
Renin content of kidneys in various types of experimental hypertension in rats, 594
Studies of plasma renin activity in patients with hypertension, 598
RETROPERITONEAL FIBROSIS
Recurrent hydronephrosis, retroperitoneal fibrosis and eosinophilia in a patient with evidence of Loeffler's infiltrate in the lungs, 1071
RHEUMATIC FEVER
Significance of serum haptoglobin in rheumatic fever, 1133
Transformation of lymphocytes by streptolysin S as a test for rheumatic fever, 953
RNA
Protein and nucleic acids of rabbit heart muscle in experimentally produced cardiac hypertrophy and failure, 501
RUBELLA
Cardiovascular lesions in rubella embryopathy with special emphasis on pulmonary arterial disease, 568

SCHISTOSOMIASIS
Letters to the Editor, 435
SILICATE CEMENT
Dental pulp pH under silicate cement and calcium hydroxide dressings, 352
SINO-ATRIAL NODE
The sinus node in cor pulmonale, 831
SKIN TRANSPLANTATION
Studies on the behavior of skin autografts following their *in vitro* treatment with cancer cells, (PSC), 1077
The xenograft rejection phenomenon. I. Response of the mouse to rabbit, guinea pig and rat skin xenografts, 1
The xenograft rejection phenomenon. II. Response of the guinea pig to mouse, rat and rabbit skin xenografts, 322
SODIUM
Sodium intake and blood pressure in Pacific populations, 608
SOY BEANS
Effect of raw soybean flour on vitamin B_{12} requirement of rats (PSC), 415
STAPHYLOCOCCUS
Tween-splitting activity of *Staphylococcus aureus* strains isolated from clinical material, 56
STOMACH NEOPLASMS
Primary gastrointestinal lymphoma, 1173
STOMACH ULCER
Effect of a single dose of phentolamine and MJ 1999 on indomethacine-induced gastric ulcer in rats (PSC), 417
STREPTOCOCCUS
Identification of type specific streptococcal antibodies by *in vitro* phagocytosis, 285
Opsonic capacity of type specific streptococcal antibodies, 293
STREPTOKINASE
Streptokinase in acute major pulmonary embolism, 844
STREPTOLYSIN
Submicroscopical myocardial lesions produced by streptolysin O *in vivo*, 1138
Transformation of lymphocytes by streptolysin S as a test for rheumatic fever, 953
STRESS, PSYCHOLOGIC
Effect of environmental changes on the development of hypercholesterolemia and atherosclerosis in cholesterol oil fed cockerels, 635
SYMPATHOLYTICS
Effect of a single dose of phentolamine and MJ 1999 on indomethacin-induced gastric ulcer in rats (PSC), 417
A single blind trial of Trasicor (Ciba 39,089/Ba) in angina pectoris, 738
SYMPATHOMIMETICS
Sympathomimetic effects of scorpion venom on the cardiovascular system, 853
SYNCOPE
Continuous telemetered electrocardiograms during syncope, 548

TACHYCARDIA
Persistent irregular tachycardia in a successful athlete without impairment of performance, 950
THIRST
Relation of kidneys and adrenal glands to hypervolemic thirst (PSC), 411

THROMBOEMBOLISM
On the problem of thromboemboli related to heart valve prosthesis. A survey of 139 consecutive cases, 395
THYROID GLAND
Radioisotope studies of thyroid function in progressive muscular dystrophy, 1188
TOLAZOLINE
Acute myocardial injury produced by sympathomimetic amines, 519
TRACHOMA
Interaction of trachoma elementary bodies with host cells (PSC), 121
TRANSPLANTATION IMMUNOLOGY
Distal tubular dysfunction after cadaver kidney homotransplantation (PSC), 117
Graft reaction in cell culture, 135
The xenograft rejection phenomenon. I. Response of the mouse to rabbit, guinea pig and rat skin xenografts, 1
The xenograft rejection phenomenon. II. Response of the guinea pig to mouse, rat and rabbit skin xenografts, 322
TRICUSPID VALVE
Clinical experience with a new type of valve replacement: a cageless discoid type of prosthesis named SAM valve, 889
Long-term (1 to 4 years) results with heart valve prosthesis (102 consecutive cases), 896
Multiple valve replacement, 893
Right ventricle and tricuspid valve in mitral valve disease, 879
TRIGLYCERIDES
Blood lipids and lipoproteins, glucose tolerance and plasma insulin response in Chinese men with and without coronary heart disease in Hawaii, 666
Role of enhanced fat mobilization in liver triglyceride accumulation in carbon tetrachloride-induced liver injury, 975
Studies on the biosynthesis of diglycerides and triglycerides in cell free preparations of the fat body of the locust *Locusta migratoria*, 1007
TUBERCULOSIS
Modulation of immunological responsiveness by pretreatment with a methanol-insoluble fraction of killed tubercle bacilli, 259
Tuberculoid granulomata in the liver after BCG vaccination, 108
ULTRASONICS
The diagnostic applications of cardiac ultrasonics, 559
URIC ACID
Hyperglycemia and uric acid, 1048
URINARY TRACT INFECTIONS
The epidemiology of urinary infections in Hiroshima, Japan and their relation to blood pressure levels and chronic pyelonephritis, 612
UVEITIS
Diethylcarbamazine and uveitis (PSC), 1263
VACCINATION
Tuberculoid granulomata in the liver after BCG vaccination, 108
Vaccination against plasmodia, 429
VALSALVA'S MANEUVER
The application of photoplethysmography to the recording of Valsalva maneuver responses, 534
VENOMS
Myocardial pathology following scorpion venom injection, 849
Sympathomimetic effects of scorpion venom on the cardiovascular system 853
VENOUS PRESSURE
The immediate effect of rapid infusion of different fluids on static lung compliance and central venous pressure, 1149
VIRUS REPLICATION
Effect of p-flourophenylalanine on the replication of herpes simplex virus (PSC), 1083
VITAMIN B_{12}
Effect of raw soybean flour on vitamin B_{12} requirement of rats (PSC), 415
Selective vitamin B_{12} malabsorption with proteinuria in Israel. Clinical and genetic aspects, 62
WATER
Serum lipids in hard and soft water communities, 657
WATER ELECTROLYTE BALANCE
Acute myocardial injury produced by sympathomimetic amines, 519
Intravascular, interstitial and intracellular phase changes during acute furosemide or ethacrynic acid diuresis, 942
